

LS-B10/LS-B10W & RD-100W/LS-B100

Laser Receivers & Wireless Remote Display

Low-cost indicate solutions

- SMALL, LIGHTWEIGHT DESIGN
- LS-B10/LS-B10W: 270° DETECTION
LS-B100: 360° DETECTION
- RUGGED, WATERPROOF DESIGN
- WIRELESS SUPPORT & CAN SUPPORT
- BRIGHT INDICATOR LIGHTS

LS-B10 Series and RD-100W

The LS-B10 Series are low-cost indicate solutions that were designed with two purposes in mind; to help move dirt, and grow with your company. These versatile receivers can be mounted on a array of machines, while their small, lightweight design allows them to be attached to a rod for grade checking applications as well.

To increase versatility, an RD-100W (remote display unit) can be mounted in the cab allowing the operator to view the same information that is displayed on the LS-B10W via wireless connection.

Integrated CAN support in the LS-B10W means that this system is provided with the flexibility to be used with future indicate and automatic machine control systems.
